## Professional Summary

---

MCA student with hands-on experience in building full-stack web applications using JavaScript technologies. Strong understanding of frontend development, backend APIs, and database integration. Passionate about writing clean, scalable code and eager to begin a career as a Full Stack Developer.

## Technical Skills

---

- **Languages:** JavaScript, Python, Java (Basic)
- **Frontend:** HTML5, CSS3, React.js, GSAP
- **Backend:** Node.js, Express.js
- **Database:** MongoDB (CRUD Operations, Schema Design)
- **Concepts:** REST APIs, MVC Architecture, Authentication Basics
- **Tools:** Git, GitHub, VS Code

## Projects

---

- **Airbnb – Property Booking Platform**  
GitHub Repository
  - Developed a property listing platform inspired by Airbnb.
  - Designed responsive frontend using HTML, CSS, and js.
  - Created backend server with Express.js for routing and API handling.
  - Designed MongoDB schemas for listings and users.
  - Focused on clean code structure and reusable components.
- **Scatch – E-Commerce Web Application**  
GitHub Repository
  - Built a full-stack e-commerce application with product listing and cart functionality.
  - Developed RESTful APIs using Node.js and Express.js.
  - Integrated MongoDB for user and product data management.
  - Implemented MVC folder structure for scalable architecture.
  - Handled backend routing, middleware, and CRUD operations.

## Education

---

### Master of Computer Applications (MCA) — Pursuing

SPPU / JSPM College of Engineering

Expected 2027

### Bachelor of Business Administration in Computer Applications (BBA CA)

Annasaheb Magar College, Pune

June 2021 – June 2024

CGPA: 7.27

## **Strengths**

---

- Strong problem-solving and logical thinking ability
- Quick learner with adaptability to new technologies
- Good understanding of software development lifecycle
- Collaborative team player

## **Languages**

---

English, Hindi, Marathi (Native)
